Overview

Full Stack Mobile App Developer with 4+ years of experience delivering fintech and e-commerce mobile and web solutions using **Flutter** and **React Native** in UAE-focused markets. Proficient in backend development with **Node.js**, **MySQL**, and **MongoDB**, skilled in API integration, payment gateways, deployment, **CI/CD**, and cloud infrastructure to build secure, scalable, and user-centric digital products

Experience

Full Stack Engineer (On-Site Contract Project**))** **Nov 2025 – Dec 2025 (1-Month Contract)**

Taleef Technologies – Dubai, United Arab Emirates

- Led the end-to-end development of mobile and web applications, from architecture to delivery.

Full Stack Application Developer **Apr 2024 – Nov 2025**

Escorts Kubota Limited - Faridabad, India

- Developed, Deployed and maintained enterprise-grade mobile applications using **React Native** and **Flutter**, with **Node.js** for backend APIs and MySQL for Databases ,adhering to clean, modular architecture.
- Led the full **lifecycle design** and development of the "**EKL Trip Tracker**" app, improving employee travel tracking with an intuitive UI and robust backend.

Mobile App Developer (Flutter) **Aug 2021 – Apr 2024**

Leanports Software GmbH - Französische Straße 20 , Berlin (remote)

- Led development of **Flutter** apps (*Tellme Live* and *IPB*) while also contributing to Web Application using **React.js** and **Node.js**
- Integrated Firebase Authentication, Firestore, and Cloud Functions to enable secure login and automate backend workflows.

Projects

EKL Trip Tracker | Tracking and Claim Management Link

- Built a cross-platform mobile app using Flutter with Node.js REST APIs, integrating Google Maps Platform and device geolocation for real-time trip tracking and route visualization.
- Implemented automated widget tests (flutter_test) and API tests (Mocha) to maintain reliability, code quality, and regression safety.
- Published to Google Play and Apple App Store, following release pipelines, store guidelines, and performance optimization best practices.

TELL ME LIVE | Social Networking and Job-Seeking Platform Link

- Developed a Flutter application that connects users based on shared interests and job preferences, enabling profile creation & feeds
- Integrated Firebase Cloud Messaging and WebSocket-based communication for real-time messaging, notifications

Leoprinting ERP | Enterprise Resource Planning System Link

- Engineered ERP modules using Node.js, Express, Sequelize, and RESTful microservices with MySQL, MongoDB, and Redis, deployed on AWS using Docker containers.
- Added PHP integrations with Symfony and Doctrine, and improved system stability with automated testing.

Skills

Programming Languages: Dart, JavaScript, TypeScript, Java, Kotlin, Swift, Objective-C, C++, Python
Frameworks & SDKs: Flutter, React Native, Node.js, Express.js, GetX, Riverpod, Bloc, Redux, Django, Flask, FastAPI
Testing: Widget, Unit, and Integration Testing, API Testing (Flutter Test, Mocha, Chai)
Tools & Utilities: Git, GitHub, Postman, Android Studio, Xcode, Figma , UI/UX
Database : MySQL, MongoDB, Postgress
Devops and Cloud : Docker, Kubernetes, AWS, DigitalOcean, Firebase and Supabase

Education

B.Tech Electronics and Communication *(CGPA: 8.1)* **Aug 2019 – Aug 2023**

GB Pant Government Engineering College, Delhi , India
